### **ARTIST OVERVIEW**

Once celebrated worldwide as a viral sensation, Jodi DiPiazza is now emerging as a pianist, vocalist, and songwriter with a sound uniquely her own. Diagnosed with autism at an early age, Jodi found her voice through music — a gift that led to unforgettable performances with Katy Perry, “Weird Al” Yankovic, Cynthia Erivo, and others on some of the nation’s most iconic stages including Radio City Music Hall, Madison Square Garden, and the Gershwin Theater. Her journey has moved millions worldwide, and today she steps confidently into her role as a fully realized artist and storyteller. Jodi’s original music blends authenticity, emotional

depth, and sophisticated musicianship — weaving pop, jazz, and singer-songwriter influences into a signature voice-and-piano style. Audiences connect not only with her story of resilience, but with her artistry: clear, expressive vocals and piano playing that balances technical refinement with heartfelt emotion.
